## PROJECTS / OPEN-SOURCE

---

<b>Blog website   Link</b>	<i>Html, Css , Javascript</i>
Crafted with passion and expertise using HTML, CSS, and JavaScript, our blogging platform offers a seamless and immersive experience for both writers and readers alike.	
<b>Gemini - clone   Link</b>	<i>React.js , Gemini API</i>
The Gemini Clone project is an innovative endeavor that combines the power of React.js, Gemini API, and responsive design to create a versatile and user-friendly platform. This project aims to replicate the functionality and interface of Gemini, a popular Ai chat application , while also integrating intelligent response capabilities to answer user inquiries.	

## CERTIFICATIONS

---

- FinXthon - **Ganeshi Lal Bajaj Institute Of Technology And Management GLBITM, Greater Noida .**
- Css Basic - **HackerRank**
- SQL (Intermediate) - **hackerRank**
- Problem solving - **HackerRank**

## HONORS & AWARDS

---

- Participated in a Hackathon at Ganeshi Lal Bajaj Institute Of Technology And Management GLBITM, Greater Noida .
- Solved more than 100 questions at various coding platforms
